H4		x16 Ø10x40	A6		x1 4 mm			

Start på et plant og jævnt underlag. Brug eventuelt pap fra emballagen som underlag. Det er muligt at samle sengen alene, men vi anbefaler at være to personer. Vær opmærksom på, at når sengen er i løse dele, er den meget udsat for lakskader på hjørner og kanter. Man skal derfor være meget forsigtig, når sengen samles. Montagebolt D147 skrues i bund, hvorefter den drejes en smule tilbage, så hullet peger i retning af tilhørende bøsning D149 (se også markering på bøsning D149).

It is a good idea to assemble the bed on a smooth and even surface. Use the cardboard from the packaging as underlay. It is possible for one person to assemble the bed however we recommend that you are two persons. Be aware that the bed is very exposed to lacquer damage on the corners and edges due to all the different parts. Therefore you must be very careful when assembling the bed. Insert the mounting bolt D147 fully – turn it a bit backwards in order for the hole to have the same direction as the matching bearing D149 (see indication on bearing D149).

Fangen Sie auf eine ebene und gerade Unterlage an. Die Pappe von der Verpackung können Sie eventuell als Unterlage benutzen.

Es ist möglich das Bett alleine zu montieren, aber wir empfehlen es zu zweit zu machen.

Seien Sie darauf aufmerksam, dass das Bett solange es zerlegt ist, sehr empfindlich gegenüber Lackschäden an Ecken und Kanten ist.

Die Montage soll daher vorsichtig gemacht werden.

Achten Sie darauf, die gewindeschrauben NICHT ganz festzuspannen ehe das Bett fertig montiert ist.

Schrauben Sie den Bolzen D147 in den Boden. Drehen Sie ihn dann etwas zurück, bis das Loch in die Richtung der zugehörigen Buchse D149 zeigt (siehe Markierung auf der Buchse D149).
